

Pre-University Education, as its name indicates, has as its main objective to prepare the student for university entry, consolidate the development and comprehensive formation of the student's personality in its different facets, promoting a higher level of self-determination, attitudes and behaviors. civic organizations with an active and creative participation in the construction and defense of the Cuban socialist system, based on the conception of their life project, in accordance with their personal and social aspirations and interests.

Students who take this teaching will be educated so that they are able to:

Demonstrate a dialectical and scientific conception in the interpretation and valuation of facts, objects, processes and phenomena of nature, society and thought, through problem solving and the establishment of interdisciplinary links, creatively using study and research methods. and the new information and communication technologies.

Determine the future job profession, based on your life project and an appropriate choice, taking into account professional needs and interests, considering social and territorial priorities, as well as your academic, scientific, technical, physical and other potential. Correctly use the mother tongue with the creation of coherent oral or written texts using various norms, stylistically different in contexts of sociocultural interaction, through the use of different discursive strategies.

Communicate fluently in the English language, orally and in writing, and achieve comprehension, use and creation of texts of medium complexity, in accordance with the different school, community and mass media contexts.

Show a proactive attitude towards the care and conservation of the environment, starting from understanding the essential causes that
